

#Dont Drink and Drown

DON'T DRINK

AND DROWN

It only takes a split second for happy hour to end in a nightmare.

Figures state that about a quarter of all adult drowning victims have alcohol in their bloodstream.

If you've had a drink, stay away from the water.

Stay Safe

- Don't walk home near water, you might fall in
- Look out for your friendsmake sure they gethome safely
- Don't enter the water if you have been drinking

Effects of Alcohol

- Alcohol lowers inhibitions, leading to impaired judgment which means you are more likely to take risks and get into trouble
- Alcohol limits muscle ability making simple movements much harder
- Alcohol slows down your reactions making it more difficult to get yourself out of trouble
- Alcohol numbs the senses particularly sight, sound and touch making swimming very difficult

Keep safe, don't drink and drown.
